

Public Sector Project Management Forum

Launched in 2002 offering annual and semi-annual events.

This year marks the 22nd forum that provides opportunities for professional development, learning new Project Management trends and increasing awareness in the Public Sector.

Mission :

To coordinate a dynamic "**Public Sector Project Management Forum**" that provides an opportunity for project practitioners in the broader public sector to network, collaborate, learn and share ideas in the interest of improving project management.

Hosting Opportunities..

The forums are provided at no cost to attendees, through the generosity of hosting organizations, and the kind support of sponsors to ensure wide representation and offer learning opportunities that may not otherwise be available to public sector project managers.

PSPMF targets 2 Forums per year – Spring and Fall

Types of Forums: Large: keynotes, streams, sponsors and food provided

Small: grassroots, interactive, no lunch or half days

Upcoming PSPM Forums:

2020 Spring Forum hosted by City of Cambridge

2020 Fall Forum hosted by Regional Municipality of Niagara

Thank you to all of our upcoming and past hosts over the years!
